PROFESSIONAL PROFILE

Full Stack Engineer and Product Owner with an AI-first methodology: I design and ship end-to-end solutions with high delivery speed and the ability to onboard into any stack without friction. I combine technical product expertise with business acumen — allowing me not just to execute, but define architecture, set priorities, and make decisions that drive real impact. My generative AI-powered workflows enable autonomous problem-solving and compressed development cycles without compromising quality.

PROFESSIONAL EXPERIENCE

Full Stack Engineer & Product Owner

Sep 2024 – Present • **Current**

Cargo Electric Blue SPA

- Built a full back office web app in Next.js 16 into production within 1 month, covering billing, operational, and analytical dashboards, and admin management.
- Contributed with full features to an existing mobile app (Angular 19 + Ionic 8), onboarding into an unfamiliar stack with no ramp-up friction.
- Designed Firebase data architecture for 100% end-to-end operational coverage: data modeling, validation schemas, role-based access, and live production migration.

Next.js 16 · Angular 19 · Ionic 8 · Firebase · TypeScript · Chart.js · Product Ownership

AI Research Contributor

Nov 2024 – Aug 2025

Outlier

- Directly evaluated GPT-4, Claude, and Gemini models for enterprise use cases
- Developed benchmarking methodologies and quality standards for prompt engineering workflows
- Collaborated with international teams on AI implementation best practices

Model Evaluation · Prompt Engineering · QA · Claude · GPT-4 · Gemini

Full Stack Developer & QA Specialist

May 2024 – Dec 2024

Vemex Digital

- Built responsive web applications with React and Next.js following enterprise quality standards
- Led testing and QA strategy including unit, integration, and performance optimization

React · Next.js · TypeScript · Testing · Performance Optimization

Commercial Manager & Channel Development

2017 – 2023

Hikvision · Dahua · SSTT · Orama · Wetland

- 6 years leading national distributor networks in the tech sector — managed complex stakeholder ecosystems, public tenders (Mercado Público), and cross-functional teams
- This commercial foundation directly informs my ability to build products that solve real business problems, not just technical ones

Channel Management · Data Analysis · Stakeholder Management · Project Leadership

KEY PROJECTS

Multi-Agent Medical Conversational Chatbot · Capstone — Generative AI Diploma, Universidad de Chile

- Multi-agent architecture with LangGraph, external API integration, PostgreSQL state management, and RAG pipeline for medical documentation retrieval
- Deployed with Docker and LangServe

LangChain · LangGraph · RAG · PostgreSQL · Docker · LangServe

Prompt Maker — prompt-maker-steel.vercel.app

- Collaborative prompt repository with dynamic variables, granular access control (public/private), and real-time preview for enterprise AI workflows
- Serverless architecture with Next.js API routes + PostgreSQL. JWT auth with Next-Auth, data validation with Zod, testing with Jest + React Testing Library

Next.js · React 19 · TypeScript · PostgreSQL · Prisma ORM · Next-Auth · Jest · Zod

Tu Web En 7 Días — tuweben7dias.com

- Own commercial product: lead-capture landing page with full automated email flow and conversion-optimized design, shipped independently

Next.js · TypeScript · Nodemailer · Tailwind CSS

TECHNICAL STACK & AI TOOLS

Frontend	Angular 19 · Ionic 8 · React 19 · Next.js 16 · TypeScript · Tailwind CSS
Backend	Node.js · Firebase · PostgreSQL · Prisma ORM · REST APIs
AI & Agents	Claude Code · Gemini CLI · OpenAI Codex · LangChain · LangGraph · RAG Systems
Prompt Eng.	Agent design · AI-first workflows · Model evaluation · System prompt architecture
Automation	Zapier · Make · N8N · Business workflow automation · Systems integration
Tooling	Git · GitHub · Vercel · Docker · Scrum · Jira
Languages	Spanish (native) · English (professional fluency)

EDUCATION & CERTIFICATIONS

Graduate Diploma in Generative AI for Organizations · Universidad de Chile, FEN | 2025–2026
LangChain · LangGraph · RAG · LangServe · Docker · Multi-agent medical chatbot (capstone)

Prompt Engineering & Generative AI · The Prompt Academy | Jun 2025 – Jul 2025
Chain of Thought · Platonic method · Autonomous agent architecture · Prompt evaluation and maintenance in production

Full Stack Web Developer · Digital House Coding School | 2022–2024

Certified Scrum Master (CSM) · Certiprof | 2023

B.S. Environmental Engineering · Universidad de Falcón, Venezuela | 2009–2014
Graduated with honors — thesis on coastal environmental assessment, Paraguaná Peninsula

Available immediately · Remote or hybrid · Santiago, Chile (UTC-3)
